October 19, 2016

APPLICATION: For a Variation from the list of permitted uses set forth in Section 1248.01 of the Zoning Code of the City of Berwyn in order to allow a light manufacturing facility use for a bath and body products business on property zoned for residential use in the A-1 Single-Family Zoning District at the address commonly known as 2347 S. Clarence, Berwyn, Illinois

PETITIONER: Stephanie Miller, d/b/a Berwyn Betty's Bath & Body, Ltd.

PROPERTY: 2347 S. Clarence Avenue, Berwyn, Illinois (the "Property")

SUMMARY OF REQUEST AND RECOMMENDATION: The City of Berwyn has received a request from Petitioner Stephanie Miller, d/b/a Berwyn Betty's Bath & Body, Ltd. ("Petitioner") for a variation from the list of permitted uses set forth in Section 1248.01 of the Zoning Code of the City of Berwyn ("Zoning Code") in order to allow a light manufacturing facility use for a bath and body products business on a property zoned for residential use in the A-1 Single-Family Zoning District at 2347 S. Clarence Avenue. A light manufacturing use is not a permitted use in an A-1 residentially zoned district and Petitioner is therefore seeking a variation from the list of permitted uses in Section 1248.01 in order to allow her to locate her business on the Property.

Following a public hearing held on October 19, 2016, the Zoning Board of Appeals of the City of Berwyn ("ZBA") recommended approval of the requested variation on a vote of 6-0.

BACKGROUND: The Property consists of a residentially zoned corner property at Clarence and 24th Avenue. Petitioner has a contract to purchase the Property subject to City approvals to locate the business there. Petitioner has filed the application seeking a variation from the list of permitted uses of property in a single-family zoning district with the intent to make it the manufacturing site for Berwyn Betty's Bath & Body, Ltd. It would be a manufacturing site only; no brick and mortar retail sales would take place on the Property.

PUBLIC HEARING: A public hearing related to the variation request took place at the October 19, 2016 ZBA meeting. At the public hearing, Petitioner Stephanie Miller testified about the nature of the proposed bath and body product manufacturing use. There is no retail component to the proposed use; all sales are wholesale and online.

She has lived in Berwyn for nineteen (19) years. There is an oversized garage on the Property capable of holding nine (9) cars. Parking was discussed, including whether on-street parking by employees would impact the nearby Post Office. Parking will not be an issue; only one (1) of the employees drives, and parking by employees, should they drive, will be on-site.

The building on the Property is a two-unit. Petitioner proposes to use only the first floor for the business. She will open the space up and restore the tin ceilings. The second floor will be a rental apartment. The second floor needs to be overhauled. Her husband will make product deliveries to the local post office in their vehicle.

Petitioner currently has three (3) employees and operates the business as a home occupation. People in the area where she is currently located are aware of her business and there have been no complaints or problems. She hopes to grow the business to no more than six (6) employees. The business will operate no earlier than 8:00 a.m. and no later than 8:00 p.m. Petitioner's 17-year old daughter is disabled and works for the business. She would like to hire additional disabled persons to create a mix of disabled and able employees. The only non-natural ingredient used in the manufacturing process is food coloring. There are no machines associated with the manufacturing process; just mixing and placement of the product in molds. No heating or cooling process is used other than use of a normal microwave oven. The employees only work on weekdays, although Petitioner herself works on weekends. Her husband makes the deliveries to the post office. No non-residential waste materials are created by the manufacturing process.

There is storage space in the garage, including in an area above the garage formerly used as a pigeon coop. The basement is raw and too low for use by the business. Utilities are in the basement. The building has separate entrances at the front and rear. In the front, there are two doors to the outside, one for each unit. The business would mainly utilize the rear entrance. The business will not produce any noise or exhaust or use any flammable materials.

Area residents talked about the location of the business. This is a busy corner, and they expressed concern about a commercial location here. Residents were also concerned about noise. In the 1970's, the first floor housed a small grocery store. The Property was in disrepair for many years. Finally, they do not want excessive signage for the business.

Fourth Ward Alderman Robert Fejt expressed support for the variation with appropriate conditions imposed to protect neighboring residential uses.

Exhibits marked during the course of the Public Hearing included: **Exhibit 1**, the published legal notice for the public hearing, and the accompanying Certificate of Publication. **Exhibit 2** consisted of the full application for the relief sought by Petitioner.

There being no further questions or members of the public wishing to speak on the application, the Public Hearing was closed.

The Area Investigator appointed in this matter was ZBA member Alicia Ruiz. She noted that the building on the property is currently in bad condition and has not been cared for. Petitioner plans to restore and preserve the building. The garage is very large, but in a bad condition. It has a big apron. She talked about the fact that the manufacturing would be done with natural products and there would be no disposal of unusual waste. The store front would be restored and there would be an open floor plan in the first floor interior. The Property was a foreclosure at one time.

The other members of the ZBA each then in turn expressed their views on the proposed variation and use. Member Ruiz made a motion to approve the variation with the following conditions:

1. No signage shall be allowed other than a logo on the awning;
2. The use shall operate in substantial compliance with the business plan provided by the Petitioner as part of her Application;
3. No machines shall be used in the production of products on the Property, other than residential grade appliances;
4. No furnace, kiln or other heating process shall be used in the production of products on the Property, other than a microwave oven;
5. The use shall be restricted to the first floor and garage areas of the Property; the second floor shall remain a residential unit;
6. There shall be a maximum of six (6) employees on site;
7. Employees must park on the Property; and
8. The variation is restricted to Petitioner and her lawful heirs. It is not otherwise transferable and shall terminate upon cessation of the operation of the proposed use by Petitioner or her lawful heirs.

The motion was seconded by Member Castaldo. On a roll call vote, the ZBA recommended that the City Council approve the requested variation with the stated conditions by a vote of 6-0.

FINDINGS: The ZBA makes the following Findings as to the proposed Variation:

- (A) Because of the particular physical surroundings, shape or topographical conditions of the specific property involved, a particular hardship to the owner would result, as distinguished from a mere inconvenience, if the strict letter of the Zoning Code were carried out. The members of the ZBA found that this standard had been met.
- (B) The conditions upon which an application for a variation is based are unique to the property for which the variance is sought and are not applicable, generally, to other property within the same zoning classification. The members of the ZBA felt that the fact that the first floor had previously been a commercial use was a

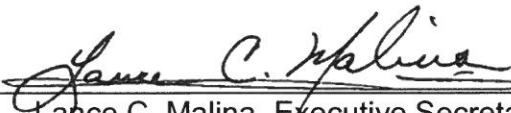

unique factor. Another important factor was the oversized garage and corner lot location. The ZBA found that this standard had been met.

- (C) The purpose of the variation is not based primarily upon a desire to increase financial gain. The ZBA found that the purpose of the variation included providing meaningful employment opportunities for disabled individuals, and the restoration and rehabilitation of a long-neglected property.
- (D) The alleged difficulty or hardship is caused by the Zoning Code, and has not been created by any persons presently having an interest in the Property. The members of the ZBA felt that this standard had been met; the oversized garage and first floor formerly used for a commercial purpose are existing conditions.
- (E) The granting of the variation will not be detrimental to the public welfare or injurious to other property or improvements in the neighborhood in which the property is located. The members of the ZBA found that the impact of the proposed use on the neighborhood, with the conditions stated, will be negligible. The use will not generate noise or waste. Employees rarely drive, and when they do, will park on-site. No unusual machinery or processes will be used in the production of products, and the building will be restored and rehabilitated by Petitioner.
- (F) The granting of the variation will not alter the essential character of the neighborhood. The proposed use, with the conditions stated, will have a negligible impact on the neighborhood. The use will not generate noise or waste. Employees rarely drive, and when they do, will park on-site. No unusual machinery or processes will be used in the production of products, and the building will be restored and rehabilitated by Petitioner.
- (G) The proposed variation will not impair an adequate supply of light and air to adjacent property, substantially increase the congestion of the public streets, increase the danger of fire, impair natural drainage, create drainage problems on adjacent properties, endanger the public safety or substantially diminish or impair property values within the neighborhood. The variation, with the conditions stated, will not pose a fire or public safety hazard. Parking will be on-site. The building has been neglected and will be restored and rehabilitated by Petitioner, providing a net benefit to the neighborhood.

RECOMMENDATIONS: Based upon the foregoing Findings, the ZBA, by a vote of 6-0, recommends to the Mayor and City Council that the request of Petitioner Stephanie Miller, d/b/a Berwyn Betty's Bath & Body, Ltd., for a variation from the list of permitted uses set forth in Section 1248.01 of the Zoning Code of the City of Berwyn, in order to operate a light manufacturing facility on property zoned for residential use in the A-1 Single-Family Zoning District at 2347 S. Clarence Avenue, be approved with the following conditions:

1. No signage shall be allowed other than a logo on the awning;
2. The use shall operate in substantial compliance with the business plan provided by the Petitioner as part of her Application;

3. No machines shall be used in the production of products on the Property, other than residential grade appliances;
4. No furnace, kiln or other heating process shall be used in the production of products on the Property, other than a microwave oven;
5. The use shall be restricted to the first floor and garage areas of the Property; the second floor shall remain a residential unit;
6. There shall be a maximum of six (6) employees on site;
7. Employees must park on the Property; and
8. The variation is restricted to Petitioner and her lawful heirs. It is not otherwise transferable and shall terminate upon cessation of the operation of the proposed use by Petitioner or her lawful heirs.
